DETAILED ACTION

Claim Objections

1. Claims 1-20 are objected to because of the following informalities:
 - a. Claim 1, line 1, "so-called" should be deleted;
 - b. Claim1, line5, "wherein" should read --comprising:--
 - c. Claim 15, line 3, "preferably" should be deleted;
 - d. Claim 16, line 2, "in particular" should be deleted;

Appropriate correction is required.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

a. Regarding claim 1, the word "means" is preceded by the word(s) "by" in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967).

In claim 20, the recitation, "a number of sensors" is indefinite. Clarification is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

b. Claims 1-4, 7, 11 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Price. Price discloses all of the limitations of the instant invention including a spacer 2, resistance 6 or 9, abutment 13, gripping member 5, anchorage point 19, 20.

4. Claims 5-6, 8-10, 12-13, 15-20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
